

Groupe Open joins the EnterNext PEA-PME 150 index

Paris, 12 November 2014 – Groupe Open (ISIN: FR 0004050300; NextEconomy segment – 972, IT services), digital services companies, announces its inclusion in the EnterNext PEA-PME 150 index to be launched on 17 November this year.

The creation of this new addition to the family of Euronext indices dedicated to PEA-PME equity savings plans is part of EnterNext's active policy of raising the profile of SMEs and intermediate-sized enterprises among investors. The initiative comes in response to finance industry demand for the creation of a benchmark index for midcaps that are eligible for PEA-PME savings plans. The range of different sectors covered will provide investors with an overview of the most liquid small and midcaps.

"Our presence in this index will raise the profile of Groupe Open among potential investors, as presented to us by Euronext on 6 November 2014," said Guy Mamou-Mani, Open Co-President.

This new index will comprise 150 French companies that are accompanied by EnterNext, eligible for PEA-PME savings plans and listed on the Euronext and Alternext markets in Paris.

The stocks will be ranked by the size of their float. The weight of each stock is subject to a ceiling of 2.5% and there is also an upper limit of 20% for any single sector.

The index will be revised once a year and its weighting reviewed each quarter.
